Weed and Seed Program

E. L. Tarlton & Associates teamed up with the MXD Collaborative to conduct an assessment and evaluation of the Federal Weed & Seed Program administered by the Atlanta Police Department for three Metro Atlanta communities: Capitol Homes, Mechanicsville, and Thomasville Heights. We completed an assessment of the results of the program's goals to measure actual results against projected results to:

- Compile accomplishments and results;
- Observe any departure from planned achievements;
- Judge the worth of the program; and,
- Make recommendations for expansion, contraction and/or modification of the program.

Client: MXD Collaborative, Inc.

Capitol Homes

Mechanicsville

Thomasville Heights
